business runs on decisions business relies on estimates plans and projections and we all know how accurate they tend to be careers are made careers are broken based on perceived accuracy in estimation

and planning but what if the successes and failures of these projects were not based on the prowess of those making the plans what if successes and failures were instead the result of a more complex set of events what if our own cognitive biases our own brains were creating our inaccuracies our poor assumptions and our unreasonable expectations why plans fail directly addresses our ability to plan to forecast and to make decisions written by jim benson author of the shingo research award winning personal kanban urban planner software developer and business owner who has planned and built everything from small software projects to houses to urban freeway systems why plans fail is told by someone with much skin in the estimation and planning game this short work is the first in the modus cooperandi mememachine series which looks specifically at underlying issues that directly impact the success of teams companies and individuals the mememachine series is meant to start conversations and advance discussion

specifics of decision making in modern business systems focuses on the regularities and tendencies that are peculiar for the modern russian practice of decision making in business systems as well as the authors solutions for its optimization in view of new challenges and possibilities

how do executives make decisions based on what are their decisions conscious or unconscious can they explain each decision they make what tools can they use to improve their decision making process what rules of thumb heuristics can they use when faced with decision making challenges these are some of the questions this book is about during the past 30 years as an entrepreneur and senior executive of several medium sized canadian hi tech businesses the author observed his decision making processes to be based either on experience or on advice received from colleagues seldom were decisions based on formal or informal academic based methods discussing decision making methods with other executives of comparable business backgrounds confirms they rely on similar methods when looking for solutions to challenging business problems there is no substitute for years of experience in any human endeavour however tapping into some of the methods and lessons learned from personal experience can result in useful principles for others to follow these principles might be useful especially for entrepreneurs interested in building their businesses or executives looking for some additional help in acquiring a better decision making mouse trap
